

TECHNICAL DATA SHEET

LAUNDRY POWDER

Concentrated low foam laundry powder

DESCRIPTION:

Laundry Powder is a concentrated laundry detergent formulated to effectively cleanse and brighten laundry whilst prolonging fabric life. Low foaming for use in automatic washing machines, Laundry Powder contains a blend of optical brighteners, colour safe bleach and anti-reposition agents. The colour safe bleach in Laundry Powder works at low temperature (35-40°C), thus offering a cost saving over laundry powders, which require high temperature washes to be effective.

METHOD OF USE:

Dry addition: May be added dry to the washer, either by hand or the water flush hopper.

Stock solution: Maximum concentration 80g per litre. Add powder to lukewarm water and agitate until completely dissolved.

RECOMMENDED DOSAGES:

Light soiling: 5g per kg dry weight

Medium soiling: 7.5g per kg dry weight

Heavy soiling: 10g per kg dry weight

PACKAGING:

Laundry Powder is packed into 10kg and 25kg polybags.

PRECAUTIONS:

In the case of accidental eye contact, flush with copious amounts of water and seek medical advice. If ingested, give plenty of water to drink and seek medical attention. Do not induce vomiting.

FOR MORE INFORMATION, PLEASE CONSULT THE MATERIAL SAFETY DATA SHEET.
