

TECHNICAL DATA SHEET

TOILET BOWL SANITIZER

High strength acidic toilet bowl cleaner

DESCRIPTION:

Toilet Bowl Sanitizer is a thickened acidic liquid cleaner containing a synergistic blend of surface active agents, viscosity modifiers and acidic materials, primarily intended for the cleaning, sanitising and deodorising of all sanitary ware (e.g. urinals, toilet bowls, etc.), where stains have to be removed.

Toilet Bowl Sanitizer has also been successfully used in the removal of rust and scales from vertical surfaces. Where the viscosity modifiers allow extended contact time with the contaminants.

METHOD OF USE:

Toilet Bowl Sanitizer should be used as supplied by brushing, wiping or spray applicator.

PROPERTIES:

Appearance: Clear, water-white liquid
pH (as is): < 2.0
R.D. @ 20°C: 1.05

PACKAGING:

Toilet Bowl Sanitizer is supplied in 25lt plastic containers.

PRECAUTIONS:

Toilet Bowl Sanitizer is an acidic material. Wear the appropriate personal protective equipment. In the case of accidental contact with the skin or eyes, flush the affected area with copious amounts of clean water. If irritation persists, seek medical advice. If ingested, give plenty of water to drink and seek immediate medical attention. Do not induce vomiting.

FOR MORE INFORMATION, PLEASE CONSULT THE MATERIAL SAFETY DATA SHEET.
